

License Reciprocity: Certification in Emergency Medicine

18 V.S.A. 906b

An individual who has a certification in emergency medicine is considered to have a license at that same skill level until the Vermont Department of Health formally issues a license.

Transitional provision; certification to licensure

Every person certified as an emergency medical provider shall have his or her certification converted to the comparable level of licensure. Until such time as the department of health issues licenses in lieu of certificates, each certified emergency medical provider shall have the right to practice in accordance with his or her level of certification.
