

License Reciprocity: Out-of-State Infrastructure Employee

Burns Ind. Code Ann. 6-8-13-13

An out-of-state employee, who is in the state to provide disaster emergency work related to repairing, renovating, installing, or building infrastructure that is damaged, impaired, or destroyed, is not required to follow state or local licensing and registration requirements.

Exemption from state and local licensing and registration requirements

An out-of-state employee is exempt from state and local licensing and registration requirements with respect to disaster emergency related work performed during a disaster period.
